

TECHNICAL DATA SHEET

WearGone Lithium NLGI 2

Lithium Based Grease infused with WearGone Technology

DESCRIPTION Lithium based grease infused with WearGone FR1 proprietary technology. Specifically developed and designed for all metals including yellow metals. The infused proprietary technology presents friction reductions and sustainability that no other grease marketed presents.

APPLICATIONS WearGone Lithium Grease is for any and all greasing operations performed on mechanical equipment. Bearings of all types as well as all applications where metal to metal contact is consistent.

ADVANTAGES By utilizing the WearGone Lithium Grease throughout your entire operations, greasing intervals will be drastically reduced while allowing component/ equipment life to have greater longevity. Also amperage is drastically reduced resulting in energy savings.

Reduces Coefficient of Friction, Reduces Operating Temperatures, Impedes Corrosion, Increases seal life by lubricating Elastomers

MATERIALS COMPATIBILITY

Recommended for ferrous and nonferrous metals

PHYSICAL PROPERTIES

Color..... Red
Appearance..... Smooth / Tacky
Thickener Type..... Lithium Complex
Chlorine..... NONE

AVAILABLE SIZES

10-14oz. Tubes 61014
5 gallon pail..... 60050
35 lb. keg..... 60035
55 gallon drums..... 60055

HEALTH AND SAFETY

Wear eye protection / face protection. Causes serious eye irritation. Refer to (MSDS) Material Safety Data Sheet information on health and safety
